

RING SIZER KIT

1. When printing uncheck all "Scale to Fit" checkboxes.
2. Trim your ring sizer & wrap around your finger with numbers facing out
3. Adjust your ring sizer around your finger until it feels snug and can still move around your finger. Be sure it is not too tight or too loose.
4. Your ring size will be the number aligned with the slit.

To measure the circumference of your finger, wrap a string around your finger and trim the string. Match the length of your string with the chart above.

Place the ring you snuck away with and place it on a circle on the chart above. You are looking to match the inside edge of the ring with the circle. Ok, now remember to put the ring back exactly how you found it.
